WE LIFT PEOPLE UP

PRESSURE FIT LIFT

Sets up in minutes. Not tools required.

So easy to set up, one person can install the Angel Pressure Fit Lift in minutes with no tools. Designed to work with the P440 portable ceiling lift, this flexible, lightweight system is ideal for home, hotel or cottage settings where portability is critical. You can lift or transfer someone from a bed, chair, or other piece of furniture easily with complete confidence. And there's no renovations required.

When paired with the P440 ceiling lift, the Pressure Fit system is a great solution for single care givers. The P440's natural curves allows the patient's shoulders to remain in a natural, anatomically correct position, resulting in greater comfort

and cooperation. The P440 also comes with a full range of safety features, such as an over-speed governor, slack strap sensor and positive locking latches, allowing a single caregiver to operate it safely.

For a portable lift system that works in just about any situation, the Angel Pressure Fit Lift is the ideal solution.
