QUICK STEP ASSIST-TO-STAND AID:

Sturdy support for standing. Caregiver approved.

A multi-purpose lifting aid, the Quick Step Standing Aid is an advanced sling-equipped device for raising and transferring patients quickly and easily. Its sturdy design with built-in knee and foot bed support enhances the confidence of the caregiver and patient in rising. Provides sturdy support.

Utilizes ceiling or floor lift and weighs less than 18lbs – easy for a single caregiver to attach.

Design includes foot plate, adjustable soft knee pad and hand grips.

FEATURES

- Provides sturdy sit-to-stand support.
- Sets up quickly with ceiling lift or floor lift.
- Knee and foot bed support enhance patient confidence.
